

# Ford Ranger

## Now with 5-Year Warranty

### Power On Demand

The 2.0L Bi-Turbo and Turbo diesel engines offer impressive power, torque and fuel savings. The Ranger's engine, mated with a 10-speed AT or 6-speed AT/MT, delivers the next-level performance you need to conquer any challenge.

### 360-Degree Camera

See more than ever. Select multiple camera views from the large center display for a 360-degree bird's-eye view and a 180-degree front and rear split view. For more precise driving, there's also a front off-road view and rear trailer hitch view.

Exclusive for Wildtrak 4x4

### Zone Lighting

With Ranger's zone lighting, you can illuminate individual areas surrounding the vehicle. Ideal for setting up camp in the dark, for added security when exiting the vehicle, or when work needs to continue into the night.

Exclusive for Wildtrak

### Rear Box Steps

Stepping up into the cargo area is now easier and safer than ever. The Ranger comes with tough, integrated side steps that are directly attached to the frame, inspiring confidence with every step.

### Selectable Drive Modes

Stay confident and in control over different terrain. In addition to 4x4 modes, up to 6 Selectable Drive Modes optimize performance for different surfaces, road conditions and vehicle usage.

Above image is for Wildtrak 4x4

### Larger Bed Capacity and Tailgate Lift Assist

Make light work of big loads. Ranger's larger bed can now fit Euro-sized pallet (1,200mm x 800mm) complemented with a Tailgate Lift Assist which makes it feel significantly lighter while opening.

Driver-assist features are supplemental and do not replace the driver's attention, judgment, and need to control the vehicle. May not operate at certain speeds, or in certain driving, road, or weather conditions. See Owner's Manual for details and limitations. SYNC screen appearance and functionality may change over time due to software updates.

Overseas model shown. Philippines specifications and features may vary.
