

Explorer

Ford

Next Generation Styling

Explorer features an all-new exterior design that is understated yet impossible to ignore. With bold lines and sweeping contours, Explorer inspires confidence just by looking at it. A striking beltline creates the appearance of moving even when standing still. Wraparound LED headlights signal your arrival day or night, and 20" polished aluminum wheels bring the attitude to any occasion.

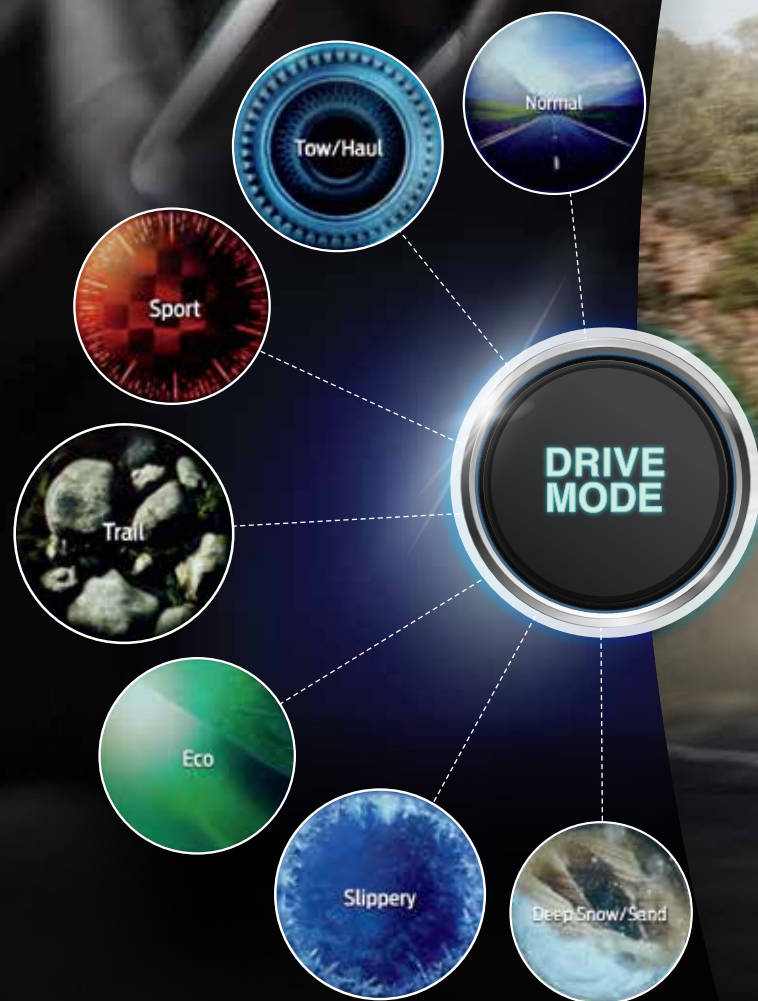

Built for Family Adventures

Explorer is ready for life. Wherever the adventure, this premium midsize SUV empowers families to pack up and head out. There's ample seating and cargo space, connectivity for everyone, all-weather and all-terrain capabilities and of course, advanced safety to keep every family adventure on the right track.

7 Driving Modes

Match your drive mode to the terrain at the turn of a dial. Intelligent 4WD and a new Terrain Management System™ gives you 7 Selectable Drive Modes that optimize performance and control over different driving conditions. Choose from Normal, Sport, Eco, Slippery, Deep Snow/Sand, Tow/Haul and Trail.

2.3L EcoBoost Engine with 10-Speed Automatic Transmission

Take on adventures of any size with a 2.3L EcoBoost engine that's engineered for performance and efficiency. With more horsepower than the previous generation, Explorer keeps every drive inspiring and exciting. Quick and seamless gear changes come courtesy of a responsive 10-speed automatic transmission, making journeys smoother than ever.

Gear Shift Dial

Get moving with a rotary dial that lets you switch from Park to Reverse to Drive in seconds. Explorer features a gear shift dial that is seamlessly calibrated to the 10-speed automatic transmission. Design-wise, it also brings a clean, low-profile aesthetic to the center console area.

Ford Co-Pilot360™ Assist+ Technology

Enjoy peace of mind all around with a suite of intuitive driver assist technologies. Ford Co-Pilot360™ is designed to help keep you confident and in control in different driving situations.

Pre-Collision Assist with Automatic Emergency Braking

This feature scans the road ahead and can alert you to potential collisions with vehicles or pedestrians in your path. If an impact is imminent, brakes can be automatically applied.

BLIS® with Cross-Traffic Alert

BLIS (Blind Spot Information System) can help by alerting you to vehicles in your blind spots. Cross-Traffic Alert helps by detecting and alerting you to traffic behind you as you slowly back up.

Lane Keeping System

Our Lane-Keeping System can alert you if you drift out of your lane, and can also apply steering wheel torque to help direct you back into your lane.

Auto High-Beam Headlamps

This feature can detect poor lighting conditions outside and switch on the vehicle's high-beam headlamps automatically. It can also sense oncoming headlamps and dim automatically to avoid blinding other drivers.

360-Degree Camera

True to its name, the 360-Degree Camera with Split View Display lets you see around Explorer, from every side. Very helpful while centering in a parking spot or while navigating a tight section of trail.

Intelligent Adaptive Cruise Control

This next-level cruise control system helps you keep pace on your journey and can slow down your vehicle if traffic ahead slows or comes to a halt. When traffic clears, it can resume your original speed.

Evasive Steering Assist

Vehicles in front of you can unexpectedly stop. In such an event this feature can provide extra assist to help you quickly steer around the vehicle, helping you avoid a potential collision.

Reverse Braking Assist

Back out confidently with Reverse Braking Assist. This feature helps keep you aware as you reverse out of your driveway or parking spot. With audible and visual alerts, it can detect stationary objects and pedestrians or cyclists, applying the brakes in case you don't react on time.

Spacious and Sophisticated

Enjoy a more spacious interior that's brimming with sophistication. Besides increased cargo space, Explorer also seats up to 7 passengers comfortably. Driver and front passenger get heated and ventilated seats, while an acoustic windshield and new dual-wall dashboard between the engine and passenger compartments put you in the quietest Explorer cabin ever.

B&O Sound System with 12 Speakers

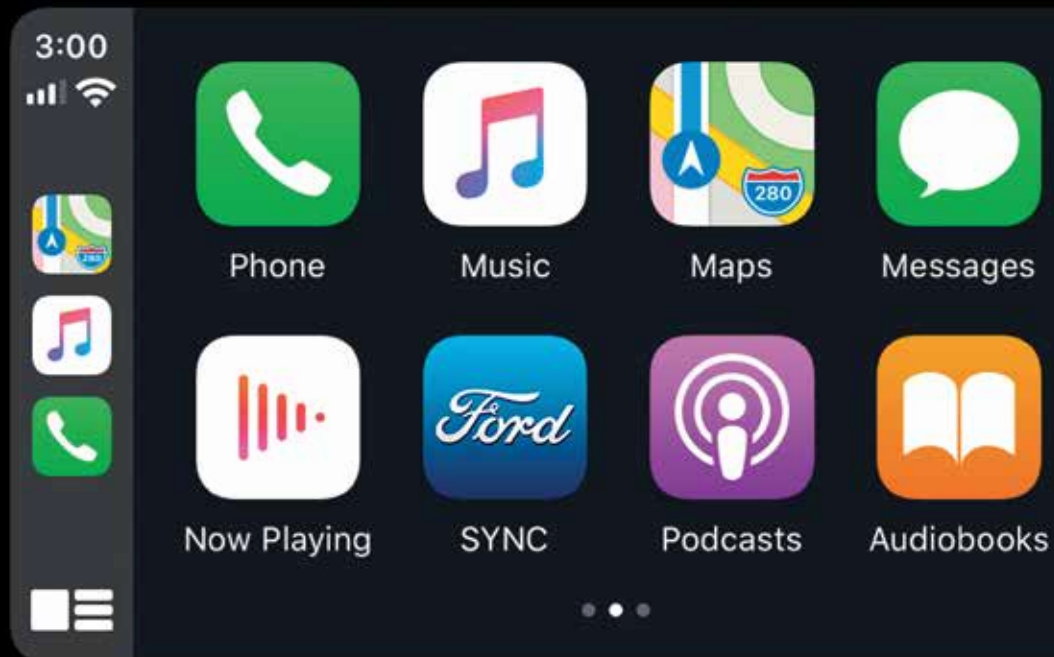

Play your soundtrack to every journey with a high-performance sound system fitted with 12 speakers. The B&O sound system delivers crystal-clear acoustics and thunderous bass frequencies for sublime listening pleasure.

Wireless Charger

Leave the cords at home with a wireless charging pad positioned conveniently in front of the center console armrests. Now you can keep your phone within reach minus the tangle of messy cables.

New Center Stack with 8" Color Touchscreen

Stay informed and entertained at all times with a redesigned center stack featuring an 8" color touchscreen. As the command center of SYNC 3[®] voice-activated technology, the center stack lets you pair your mobile phone with Explorer. Send and receive texts. Swipe left and right, use voice commands for hands-free operation.

Apple CarPlay is a trademark of Apple Inc. Apple CarPlay requires phone with compatible version of Apple iOS, active data service, and connection cable (sold separately). SYNC does not control Apple CarPlay while in use. Apple is solely responsible for their functionality. Message and data rates may apply iPhone, Siri and Apple CarPlay are trademarks of Apple Inc.

SecuriCode™ Keyless-Entry Keypad

Unlock Explorer without a key or remote. Just enter a numeric code on the keypad located on the driver's door. You can also unlock or lock all other passenger doors using the keypad. For your peace-of-mind, you have the option of changing the preset factory code to a personal code of your choice.

2nd Row Sunblinds

Stay cool in the shade wherever you go. Explorer features sunblinds in the 2nd row to shield passengers from the afternoon heat.
